## Notice of decision Published: 3/17/2017 Notice of decision US Forest Service, National Forests in Florida Forest Supervisor Kelly Russell authorized an amendment to the National Forests in Florida Land and Resource Management Plan (i.e., forest plan) on March 6, 2017. This amendment reassigned Management Areas on the Ocala National Forest and revised management direction to promote open scrub habitat for Florida scrub-jays and other rare animal and plant species. This forest plan amendment was subject to the public involvement process described in Forest Service planning regulations (36 CFR 219). No objections were received during a 45-day opportunity for the public to request administrative review of the project. The amendment is effective immediately (26 CFR 219.17(a)(2)). Project documents, including relevant regulations, are available on the project website (http://goo.gl/1Ze7Xg) or upon request (contact Matthew Trager, mdtrager@fs.fed.us or 850-523-8582).
